The easiest way to turn designs into reality

Almost everything about Opti-myst is customizable: installation length, number of visible sides, flame shape, and the media bed. And with no venting or gas lines to worry about the possibilities are endless.

Exclusive cool mist flame technology

Next generation Opti-myst flames are bigger and allow customizable patterns to suit the installation. Opti-myst is also the only water-based flame technology that is safe to touch.

Simply frame-and-go

Opti-myst is ideal for any location and any surface or finishing material. Whether above or below grade, on an inside or outside wall, simple framing and electrical connection is all that's required.

Features

Opti-myst® Flame Effect

Revolutionary ultrasonic technology produces a fine mist to create the illusion of flames and smoke.

Customizable Flame Width

Includes spacers and slots for customizable flame width and pattern.

Adjustable Flame Intensity

Control the desired volume of flame.

Continuous Water Supply

Optional plumb water supply kit (CDFIPLUMB-KIT) provides continuous operation without refilling water tanks.

Media Options

Includes media tray that can be customized with almost any media (not included). Optional inner glow logs available.

Crackling Sound Effects

Enjoy a complete sensory experience with the sound of a wood fire.

Sight and Sound Remote

Control the flames and crackling sound effects at the touch of a button.

Frame, Wire and Finish

Basic installation requires fewer tradespeople, no gas lines, venting or chimney.

Zero Emissions

The most sustainable fireplace option; no emissions and 100% efficient.

Energy Efficient

Uses low-energy LED lights for low-cost operation.
